H.E. António Guterres
Secretary-General
United Nations
New York, NY 10017

Dear Mr. Secretary-General,

We are pleased to share BlueNalu's commitment to the UN Global Compact and the Ten Principles in the key areas of human rights, labor, environment and anti-corruption, and our intent to incorporate the Ten Principles of the UN Global Compact, along with the UN Sustainable Development Goals (UN SDGs) into our business strategy from every level of functioning including operations, partnerships, communications and quality assurance. We have publicly showcased our commitment to the UN SDGs, in particular goals 2, 3, 6, 8, 9, 11, 12, 13, 14 and 17 with which our business motives and intentions are strongly aligned.

We understand that a key component of our participation in the UN Global Compact is the submission of an annual Communication on Progress (COP), updating our efforts and progress on the implementation of the Ten Principles. We are fully committed to transparency and accountability in our business functions and are committed to the requirements for participation which include the following:

- An annual statement signed by our Chief Executive Officer expressing our continued support for the UN Global Compact, in addition to our initial letter of commitment.
- A description of our practical actions, including policies, procedures, and ongoing activities, that incorporate and showcase our commitment to the Ten Principles of the UN Global Compact and the UN SDGs.
- The measurement of outcomes for the key performance indicators and the targets set forth regarding our commitments.

We appreciate your time and look forward to joining the UN Global Compact.

Sincerely,

DocuSigned by:
