Dear Mr. Secretary-General,

I am pleased to reconfirm that Industrial Moreypi S.A. supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption. With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Industrial Moreypi S.A. will make a clear statement of this commitment to our stakeholders and the general public.

The reason why we have not presented a Communication on Progress in recent years is that there have been internal changes in the organizational structure of the company that we have had to carry out after the situation experienced by the pandemic caused by COVID-19.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within *one year* of joining the Global Compact, and *annually* thereafter according to the Global Compact COP policy.

Sincerely yours,  
Mr. Pedro Lugo Gómez

General Manager
