H.E. António Guterres  
Secretary-General  
United Nations  
New York, NY 10017  
USA

Dear Secretary-General,

I am pleased to confirm that Minerals Technologies, Inc. supports the Ten Principles of the United Nations Global Compact on human rights, labor, environment and anti-corruption. With this communication, we express our commitment to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Minerals Technologies will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (CoP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress starting the calendar year after joining the UN Global Compact, and annually thereafter according to the UN Global Compact CoP policy. This includes:

- A statement signed by our chief executive officer expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles.
- The completion of the online questionnaire of the Communication on Progress through which we will disclose the practical actions the company has taken (or plans to take) to implement the UN Global Compact principles in each of the four issue areas (human rights, labor, environment, and anti-corruption).

Regards,

Douglas T. Dietrich  
Chairman & Chief Executive Officer  
Minerals Technologies Inc.
