Letter of re-commitment to the United Nations Global Compact Initiative

Dear Mr. Secretary General,

I am pleased to confirm that BADER GmbH & Co. KG supports the United Nations Global Compact since 2018, and we are committed to upholding its Ten Principles concerning human rights, labor standards, environment and anti-corruption practices as well as the 17 Sustainable Development Goals (SDGs) of the 2030 Agenda for Sustainable Development. For us, the Global Compact Principles act as a "compass" to help point the way and the SDGs as a "lighthouse" for orientation.

BADER has previously been a signatory to the UN Global Compact. However, this year's invoice did not reach the corresponding person. This prevented us from making the payment on time. We have taken appropriate measures to ensure that all invoices are sent directly to our Sustainability Manager for approval. In this way, future invoices can be assigned correctly and paid on time.

We pledge to make progress on the UN Global Compact Ten Principles and take action in support on the UN goals, and to continue engaging in collaborative projects, which advance the broader development of these goals.

Sincerely yours,

Thomas Bader
CEO
