Dear Mr Secretary – General,

I am pleased to confirm that Sedex (the Supplier Ethical Data Exchange) supports the ten principles of the UN Global Compact with respect to human rights; labour standards, the environment and anti-corruption. With this commitment, we express our intent to advance these principles within our sphere of influence and will make a clear statement of this commitment to our members, stakeholders and the general public.

As the largest global collaborative platform for sharing ethical supply chain data across the existing UN Global Compact principles, Sedex is dedicated to driving improvements in responsible and ethical business practices in global supply chains.

We also pledge to take part in the activities of the UN Global Compact, where appropriate and feasible through, for instance, participation in Country / Local networks; involvement in specialized initiatives and workstreams; engagement in partnership projects; and reviewing and providing commentary to participating companies on their Communications on Progress.

We already participate in activities of the UK UNGC chapter as well as several workstreams and look forward to increasing our engagement with these groups and projects in support of the UN Global Compact principles.

Yours Sincerely

Carmel Giblin
