Dear Secretary-General,

I am pleased to confirm that RSM, the global audit tax and consulting Network with independent Member Firms in more than 120 countries worldwide, supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our commitment to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our organisation, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. At global level, RSM will make a clear statement of this commitment to our stakeholders and the general public. We recognise that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (CoP) that describes our organisation's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress starting the calendar year after joining the UN Global Compact, and annually thereafter according to the UN Global Compact CoP policy. This includes:

- A statement signed by the me as the Chief Executive of RSM International expressing continued support across our organisation for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the UN Global Compact.
- The completion of the online CoP questionnaire through which we will disclose our organisation's continuous efforts to integrate the Ten Principles into our business strategy, culture and daily operations, and a summary of our contributions to United Nations goals, particularly the Sustainable Development Goals.

Yours sincerely

JEAN M STEPHENS
Chief Executive Officer
RSM International Limited, for and on behalf of the RSM global Network.
