Dear Mr. Secretary General,

I am pleased to confirm that Results for Development supports the ten principles of the UN Global Compact with respect to human rights, labour, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles and will make a clear statement of this commitment to our stakeholders and the general public.

The UN Global Compact mirrors our organizational mission of supporting change agents around the world to create self-sustaining systems that support healthy, educated people, and we pledge to participate by engaging our partners and stakeholders to support its principles.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely,

Gina Lagomarsino
Chief Executive Officer
