Dear Mr. Secretary General,

I am pleased to confirm that Etisk Handel Danmark (Ethical Trade Denmark) supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s): Ethical Trade Denmark is the Danish platform for companies and organizations that work for responsible and sustainable trade. Together we form a movement for increased ethical trade. In our community, we work to promote the highest standards for ethical trade and responsible business. We do that by strengthening collaboration, knowledge and action strengthening corporate responsibility and sustainability in global value chains.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within *two years* of joining the Global Compact and *every two years* thereafter according to the Global Compact COE policy.

Sincerely yours,
