Dear Mr. Secretary-General,

I am pleased to inform you that Fraternidad-Muprespa, Partner Mutual Insurance Company of the Social Security System No. 275, supports the Ten Principles of the Global Compact on human rights, employment rights, the environment and the fight against corruption. We hereby express our intention to support and implement these principles within the scope of our sphere of influence. We also undertake to duly inform our stakeholders and the general public of this commitment.

We are committed to supporting the United Nations Global Compact, implementing its ten principles in our strategy and management, promoting participation and visibility for the activities of the Global Compact and communicating those activities through our communication channels.

We recognise that a key requirement for participation in the Global Compact is the issue of a Communication on Engagement (CoE) every two years describing the efforts by our organisation to implement the ten principles and engage with the Global Compact. We support transparency and accountability. We are therefore committed to reporting on our progress over the next two years since becoming one of the non-business organisations that supports the Global Compact, as well as every two years from then on, as indicated by the CoE policy of the Global Compact.

Yours faithfully,

Dear Mr. Secretary-General,

I am pleased to confirm that FRATERNIDAD MUPRESPA supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption. With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals. FRATERNIDAD MUPRESPA will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within *one year* of joining the Global Compact, and *annually* thereafter according to the Global Compact COP policy.

Sincerely yours,

MR. Carlos Aranda Martín
