## Update Letter of Commitment for UN Global Compact Initiative

Dear Mr. Secretary-General,

the ALDI Nord Group of Companies supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption since March 2017.

With our Letter of Commitment in 2017, we expressed our intent to implement those principles. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. The ALDI Nord Group of Companies makes a clear statement of this commitment to our stakeholders and the general public.

Since 2017 we are submitting annually a Communication on Progress (CoP) that describes our company's efforts to implement the Ten Principles. We are still supporting public accountability and transparency.

With this update of the Letter of Commitment we also want to point out that the correct name of our group of companies is **ALDI Nord Group of Companies**. The wording "ALDI North Group" is not correct. We would be obliged if you could amend the data accordingly.

Sincerely yours,

Timo Dietz

## Letter of Commitment for UN Global Compact Initiative

Dear Mr. Secretary-General,

I am pleased to confirm that the ALDI North Group supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption.

With this communication, we express our intent to implement those principles. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. The ALDI North Group will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy.

Sincerely yours,
