Dear Sir,

**RE: KENYA POWER & LIGHTING COMPANY PLC MEMBERSHIP TO UN GLOBAL IMPACT**

I am pleased to reconfirm that The Kenya Power and Lighting Company Plc supports the ten principles of the Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects, which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. The Kenya Power and Lighting Company Plc will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles and support any specialized UN Global Compact issue platform that our company may join at a later date.

We support public accountability and transparency, and therefore commit to report on progress within one year of rejoining the Global Compact, and annually thereafter according to the Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the Global Compact.
- The completion of the online questionnaire of the Communication on Progress through which we will disclose our company's continuous efforts to integrate the Ten Principles into our business strategy, culture and daily operations and contribute to United Nations goals, particularly the Sustainable Development Goals.

In 2019, the company was delisted because the business was unable to submit the company's annual communication on Progress (COPs) for two consecutive years. This was occasioned by a protracted recruitment of a substantive Auditor General resulting to delayed approval of Kenya Power & Lighting Company Plc integrated report. However, we have the following solutions to abate:

1. Adherence to the ten principles of the Global Compact on human rights, labour, environment, and anti-corruption.
2. Prompt submission of the Communication on Progress (COP) report through new online questionnaire as the primary disclosure channel.

Yours Sincerely,

**ENG. GEOFFREY MULI**  
**AG. MANAGING DIRECTOR**
