Dear Mr. Secretary-General,

I am pleased to confirm that Sky Deutschland supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our commitment to continue to make the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. As part of our parent company Sky Ltd., Sky Deutschland will reiterate its statement of this commitment to our German stakeholders and the general public and join the UN Global Compact Network Deutschland as a subsidiary.

We are committed to taking action on climate change and we have set targets to reach net zero carbon across our value chain by 2030, aligned with limiting global temperature rise to 1.5°C. We continue our support of the United Nations Global Compact's Business Ambition for 1.5°C.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency and will continue our annual Communication on Progress for the Sky Group (Sky Ltd.) ensuring coverage of our progress in Germany, according to the UN Global Compact COP policy.

Sincerely yours,

Devesh Raj
CEO Sky Deutschland
