H.E. António Guterres Secretary-General United Nations New York, NY 10017 USA

Dear Mr. Secretary General,

I am pleased to confirm that NNLE New Vision University supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

As an academic institution, we fully acknowledge our role and responsibility in shaping the future generation of responsible leaders, guided by sustainable management and leadership practices and values. Integral part of New Vision University's mission is to contribute to the well-being of society and commitment to social responsibility. Shared vision of university community is to support economic growth and sustainability. We deeply believe that joining the collaborative effort to advance the principles of the UN Global Compact will support enacting our mission and vision, whilst our efforts will be beneficial for advancing these principles.

We pledge to participate in and engage with the UN Global Compact in the following way:

- Promote the UN Global Compact Ten Principles and educate a variety of audiences about sustainability, through advancing understanding among staff, students, alumni and wide society;
- Conduct applied research to advance best practices;
- Support and lend capacity to Global Compact Local Networks and the UN Global Compact in New York.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.
