Dear Secretary-General

This letter is written to express Airestec's support with regards to the Ten Principles of the United Nations Global Compact which consists of human rights, labour, environment, and anti-corruption. Airestec is an Environmental and Life Sciences company that is currently aligned with 10 out of 17 of the Sustainable Development Goals and we want to evolve further and be aligned with more SDGs as a Small Medium Enterprise (SME). Thus, we believe that the United Nations Global Compact acts as a strong pillar of support to aid and strategize the daily business operations and culture of Airestec to be known as a SME on the forefront of sustainability.

Therefore, Airestec's commitment to the UN Global Compact will be demonstrated by submitting the Communication on Progress (CoP) annually to detail the evolution and effort made by the company to implement the Ten Principles. We have and will continue to operate our business with accountability and transparency with the addition of reporting on our progress starting in the calendar year after joining the UN Global Compact in accordance with the UN Global Compact CoP policy. Our actions to commit to this membership includes:

- An expression of continuous support for the UN Global Compact from the Chief Executive/ Managing Director with a statement that contains his/her signature and for Airestec to renew our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the UN Global Compact.
- Airestec's completion of the online questionnaire of the Communication on Progress through which we will disclose our company's continuous efforts to integrate the Ten Principles into our business strategy, culture, and daily operations, and contribute to United Nations goals, particularly the Sustainable Development Goals.

Sincerely yours,

.....
