

Ref No:19/15

January 11th ,2023

H.E. António Guterres
Secretary-General
United Nations New York, NY 10017, USA

Dear Secretary-General,

We are pleased to confirm that Türkiye Şişe ve Cam Fabrikaları A.Ş. supports the Ten Principles of the United Nations Global Compact on human rights, labor, environment, and anti-corruption. Şişecam has went through a one-of-a-kind transformation initiative starting from 2019 onwards that we call "One Şişecam" to unify all of its business fields under one legal entity and changed its operating model to turn into a leaner, more agile, customer centric organization. With this great initiative, the company has revamped its corporate strategy and has set a comprehensive Sustainability strategy branded as "CareforNext" to significantly strengthen the sustainable growth journey of our company with ambitious targets on material issues of our industry and that of the world. Within our Carefor Next Sustainability strategy we have clearly defined roadmaps and initiatives that ensure the rightful trajectory of our operations with a bold adherence and support to the United Nations Global Compact.

Our 2030 CareforNext Sustainability strategy is a critical guide to our entire organization and has a pivotal position within our corporate strategy with dynamic and continuous assessments on environmental, social and governance (ESG) aspects. We aspire to secure a place among organizations that create tangible positive impact and value on a global scale with solutions and services that Protect the Planet, Empower Society and Transform Life.

Relying on our strong heritage and corporate journey since 1935, we strengthened our governance structure, which is a vital enabler in the implementation, execution and monitoring of our CareforNext strategy effectively. In addition to our Sustainability Committee, which consists of our Executive Board members, we established a Board of Directors Sustainability Committee in 2021 that is formed of the members of the Board of Directors of Şişecam. With these two separate committees, we have reinforced our mission to adopt and effectively manage and comply with the sustainability strategy of our company in all our geographies, business functions and operations.

We are maintaining our commitment to sustainable growth, which we have demonstrated with our current investments, and with the vision towards our 2030 targets. Our growth journey is set in line with our goal of being a prominent solution partner for meeting the needs of our partners and presenting them to our distinguished stakeholders.

Through this letter, we are extremely pleased to express once again our commitment to be in complete accord with the UN Global Compact and its principles, as part of the strategy, culture and day-to-day operations of our company. As part of this motivation, we will continue engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. What's more, Türkiye Şişe ve Cam Fabrikaları A.Ş. will make a clear statement of this commitment to our stakeholders and to the public.

We understand that one of the key requirements for participation in the UN Global Compact is the annual submission of a Communication on Progress (CoP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report our progress annually, starting from the calendar year after joining the UN Global Compact, as deemed necessary by the UN Global Compact CoP policy. We support UN Global Compact and reemphasize our ongoing commitment to the initiative and its principles while sharing our actions and outcomes on human rights, labor, environment, anti-corruption through our Sustainability Report. According to UN Global Compact CoP policy, our communication shall include:

- statement signed by the chief executive officer expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles.
- completion of the online questionnaire of the Communication on Progress through which we will disclose our company's continuous efforts to integrate the Ten Principles into our business strategy, culture, daily operations, and contribute to United Nations goals, particularly the Sustainable Development Goals.

Dear Secretary-General,

Şişecam, with its completely transformed operating model and strategy, will continue to play a significant role in our industries and across our value chains to foster sustainable operations and to create a better world. In this light, we would like to once again express our willingness to renew our membership for United Nations Global Compact and engage in collaborative projects in the upcoming periods. Our collaboration with Global Compact will enable us to achieve our CareforNext targets and improve our growth journey that creates sustainable value for our extended stakeholders.

We are looking forward to our cooperation.

Yours Sincerely,

A handwritten signature in blue ink, appearing to read 'O. Vergon', written over a horizontal line.

Mrs. Özlem Vergon
Chief Strategy Officer
