Dear Secretary-General,

We are writing to communicate our interest in rejoining the UN Global Compact Network Malaysia (UNGC) and fully committing to the Ten Principles in the areas of human rights, labour, environment and anti-corruption. We believe now is a good opportunity to develop a post-pandemic business strategy aligned to the Sustainable Development Goals (SDGs).

Ranhill Utilities Berhad herewith would like to express our intent to dedicate the Group's efforts towards achieving the 2030 Agenda and the adoption of the 17 SDGs. Currently, our Sustainability statements in the corporate website are well aligned with UNGC principles in the aspects of human rights, climate change and biodiversity. With the help and support of UNGC, we will continuously be ready to publicly share our commitments and report on progress through established platforms to strengthen trust and enhance transparency with our stakeholders.

We acknowledge the need to submit an annual Communication on Progress (COP) to track and convey our sustainability performance. We are well in our process to develop a baseline for the Group's environmental and social performance and set targets for further reduction by 2023. We commit to abide by the UNGC COP policy, including providing the Ranhill's Sustainability Pillars and materiality.

In conclusion, Ranhill is committed to join the UNGC and adopt its universal Ten Principles and implement actions towards achieving the overall Sustainable Development Goals.

Ranhill Utilities Berhad
