Letter of commitment

Dear Secretary-General,

I'm pleased to confirm that Moonrise Mobile Singapore Pte Limited ("Kingfisher") supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment, and anti-corruption. With this communication, we express our commitment to making the UN Global Compact and its principles part of the strategy, culture, and day-to-day operations of our company, and to engage in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Kingfisher will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a "Communication on Progress" (CoP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress starting the calendar year after joining the UN Global Compact, and annually thereafter according to the UN Global Compact CoP policy. This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the UN Global Compact.
- The completion of the online questionnaire "Communication on Progress" through which we will disclose our company's continuous efforts to integrate the Ten Principles into our business strategy, culture, and daily operations, and contribute to United Nations goals, particularly the Sustainable Development Goals.

Sincerely yours,

DocuSigned by:

Georgiann Reigle

About Kingfisher

Kingfisher is a next-gen mobile experience company, totally re-engineering the mobile experience economy.

People-first by design, we're obsessed with optimizing the lifecycle of connected devices, developing end-to-end experience solutions, designed to transform the mobile experience economy for carriers, their customers, and the planet.

We extend the lifespan of connected devices by powering the efficient circulation of new and second-life devices within the global value chain, creating circular transformation at scale.
