Commitment Letter from SME Business Organization

20/04/2023

H.E. António Guterres
Secretary-General
United Nations
New York, NY 10017

Dear Mr. Secretary General,

I am pleased to confirm that HyFi Corp, a sustainable project financing company, supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s): by alleviating the suffering and poverty of vulnerable people to reach a healthier society where all people can live in dignity with a particular emphasis on a drug free environment. We want to be aligned with the UN sustainable development goals numbers 1-, 3, 8 and 17. We seek partnership with governmental agencies, international organizations, local community authorities and actors and other NGOs to achieve various developmental projects regarding the issues of children, education, in equality, social sustainability, poverty and gender equality.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Yours Sincerely,

Troy E. MacDonald
Chief Executive Officer
