H.E. António Guterres
Secretary-General
United Nations
New York, NY 10017
USA

Dear Secretary-General,

I am writing to express ESMA's continued support for the UN Global Compact Policy and to renew our commitment to its ten principles. As a responsible member of the global community, ESMA firmly believes that sustainable development is crucial for ensuring a better future for our planet and all its inhabitants.

Over the years, we have witnessed the positive impact that the UN Global Compact Policy has had on businesses and organizations worldwide. It has become a powerful tool for promoting responsible business practices and for advancing the Sustainable Development Goals. We are proud to be part of this global movement for change.

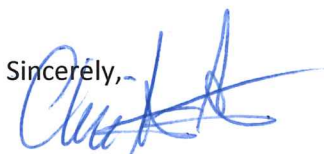

ESMA reaffirms our commitment to the UN Global Compact Policy and its principles. We will continue to uphold these principles in our personal and professional life, and we will encourage others to do the same. We will work to integrate sustainable development goals into our strategies, operations, and policies, and to ensure that we are accountable for our social and environmental impact.

In addition, ESMA commits to completing the online questionnaire of the Communication on Progress and to disclose our continuous efforts to integrate the ten principles into our business strategy. We will provide transparent and accurate information about our progress towards achieving our sustainability goals, and we will actively seek feedback from our stakeholders to improve our performance.

We recognize that the road to sustainability is a long one, but we are committed to making a difference. We will continue to use our voice and influence to promote sustainability and to advocate for responsible business practices. We will support and collaborate with like-minded individuals and organizations to achieve our common goals.

In closing, we would like to express our gratitude to the UN Global Compact for its leadership in promoting sustainable development and for providing a platform for businesses and organizations to contribute to the achievement of the Sustainable Development Goals. We look forward to continuing our journey towards sustainability with the UN Global Compact Policy and its principles as our guide.

Sincerely,

Christian Hähle
CEO, Partner
