Dear Secretary-General,

We are pleased to confirm that Sunrock supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment, and anti-corruption. Sunrock is a renewable energy company with a vision to incorporate sound ESG principles in all aspects of our daily business. The Ten Principles of the UN Global Compact are already part and parcel of our current ESG strategy and practice. We hereby express our commitment to engaging in collaborative projects with fellow UN Global Compact partners to advance the broader development goals of the United Nations, particularly the Sustainable Development Goals.

Sunrock will make a clear statement of this commitment to our stakeholders and the general public. We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (CoP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress starting the calendar year after joining the UN Global Compact, and annually thereafter according to the UN Global Compact CoP policy. This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the UN Global Compact.
- The completion of the online questionnaire of the Communication on Progress through which we will disclose our company's continuous efforts to integrate the Ten Principles into our business strategy, culture and daily operations, and contribute to United Nations goals, particularly the Sustainable Development Goals.

Sincerely yours,
