15 May 2023

Dear Secretary-General,

I am pleased to confirm that Original (Original Consultants Ltd) supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment, and anti-corruption. With this communication, we express our commitment to making the UN Global Compact and its principles part of the strategy, culture, and day-to-day operations of Original. We understand that our commitment extends beyond our internal operations, and we are keen on engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Original will make a clear statement of this commitment to our stakeholders and the general public.

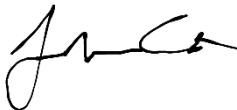

We proudly integrate our Green Project Management (GPM) approach into our business operations, a testament to our dedication to sustainability and responsible business practices. Through GPM, we align our project management efforts with environmental sustainability, contributing to the UN's environmental goals. Additionally, as a certified B Corporation, we adhere to the highest standards of social and environmental performance, transparency, and accountability. Our B Corp certification further aligns with the principles of the UN Global Compact, demonstrating our commitment to not just being the best in the world, but the best for the world.

We recognise that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (CoP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress starting the calendar year after joining the UN Global Compact, and annually thereafter according to the UN Global Compact CoP policy. This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the UN Global Compact.
- The completion of the online questionnaire of the Communication on Progress through which we will disclose Original's continuous efforts to integrate the Ten Principles into our business strategy, culture and daily operations, and contribute to United Nations goals, particularly the Sustainable Development Goals.

We look forward to participating in the UN Global Compact and contributing to a more sustainable and equitable world.

Sincerely yours,

Mr Jonathan Cox
Managing Director
