H.E. António Guterres
Secretary-General
United Nations
New York, NY 10017
USA

Dear Secretary-General:

At BioAgilytix, we are committed to fostering a corporate culture that promotes environmental sustainability, social responsibility, and responsible corporate governance. In alignment with this mission, I am pleased to inform you that, with this communication, BioAgilytix Labs, LLC (BioAgilytix), formally commits to the United Nations (UN) Global Compact.

BioAgilytix is proud to support the UN Ten Principles on human rights, labor, environment, and anti-corruption, and will continue to make them an integral part of our strategy, values, and day-to-day operations. We pledge to engage in collaborative projects which advance the broader development goals of the UN, particularly the Sustainable Development Goals.

BioAgilytix is privileged to be a part of the UN Global Compact, which fuels our Environmental, Social, and Governance (ESG) program, and will make a clear statement of our commitment to stakeholders and the general public. We respect our customers' ESG priorities and collaborate with them to ensure they are satisfactorily addressed. Other critical stakeholders include employees, suppliers, and the communities that our business impacts. We work closely with them to validate that our ESG efforts are in line with their values and expectations. Additionally, in keeping with our commitment to transparency, accountability, and measurement, we will readily comply with the UN's requirement to submit an annual Communication on Progress (CoP), starting in 2024, that includes:

- A statement signed by the BioAgilytix chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles.
- The completion of the UN online CoP questionnaire through which we will disclose our company's continuous efforts to contribute to UN goals, particularly the Sustainable Development Goals, and to integrate the Ten Principles into our business strategy, values, and daily operations.

With gratitude and respect,

Euan Menzies
Chairman and Chief Executive Officer
BioAgilytix Labs, LLC
