Dear Secretary-General,

I am pleased to confirm that the Centre for Information Resilience supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. Through this letter, we express our commitment to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. The Centre for Information Resilience will make a clear statement of this commitment to our stakeholders and the general public.

We recognise that a key requirement for participation in the UN Global Compact is the annual submission of a Communication of Progress (CoP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress starting the calendar year after joining the UN Global Compact, and *annually* thereafter according to the UN Global Compact CoP policy. This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the UN Global Compact.

- The completion of the online questionnaire of the Communication on Progress through which we will disclose our company's continued efforts to integrate the Ten Principles into our business strategy, culture and daily operations, and contribute to the United Nations goals, particularly the Sustainable Development Goals.

Sincerely yours,

**Mr. Ross Burley**

**Executive Director and Co-Founder**
