

OFFICE OF THE CEO

Dear Mr. Secretary-General,

I am pleased to confirm that EYDAP supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. EYDAP will make a clear statement of this commitment to our stakeholders and the general public.

We had already expressed our interest in participation and compliance with the UN Global Compact in 2011. However, given the economic crisis in Greece, we, unfortunately, had to discontinue our cooperation due to lack of funding for the creation of the COP. We are now fully prepared for our commitment to the UN Global Compact.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the UN Global Compact.
- The completion of online questionnaire of the Communication on Progress through which we will disclose our company's continuous efforts to integrate the Ten Principles into our business strategy, culture and daily operations and contribute to United Nations goals, particularly the Sustainable Development Goals.

Sincerely yours,
