Dear Mr. Secretary General,

I am pleased to confirm that the Sustainable Human Settlements Foundation supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s): (1) by supporting the activities of Global Compact here in the UK and Globally; (2) as a not for profit foundation established to support the unfunded and underfunded mandates as set forth by the UN Secretary General and Member States of UN Habitat through the creation of a \$1 billion perpetual endowment fund designed to ensure the foundation is able to support UNH on a perpetual basis thus, contributing to its ability in delivery of SDG 11.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

R. Grant Rogan
Co-Founder and CEO
