Dear Mr. Secretary-General,

I am pleased to confirm Boldyn Networks (formerly registered with the UNGC as BAI Communications until recently rebranding as Boldyn Networks in June 2023) continues to support the United Nations Global Compact's Ten Principles on human rights, labour, environment, and anti-corruption. With this communication, we express our intent to continue to implement those principles. We are committed in making the UN Global Compact and its principles part of the strategy, culture, and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly focusing on Sustainable Development Goals most material to our organization (SDG8, 9, 11, 10 & 13). Boldyn Networks will make a clear and public statement of this commitment through sharing our annual sustainability report and the UNGC Communication on Progress (CoP) submission.

It is our understanding that the Global Compact reflects shared values and principles between the United Nations and businesses such as our company. Our participation in the Global Compact does not limit our freedom as permitted by law to oppose public or private sector activities which we do not believe are in the best interests of our company. We note that the general intentions behind the Global Compact may be implemented differently in different countries, in keeping with local laws and customs.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a CoP, that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to annual progress reports / submissions in line with the UN Global Compact participation. Our commitment includes:

- A statement signed by the Chief Executive Officer expressing ongoing support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles, subject to agreeing to any emerging changes.
- The completion of the online questionnaire of the Communication on Progress through which we will disclose our company's continuous efforts to integrate the Ten Principles into our business strategy, culture and daily operations, and contribute to United Nations goals, particularly the Sustainable Development Goals.
- sharing our measurement of outcomes (i.e., the degree to which ESG targets / performance indicators were met, or other qualitative or quantitative measurements of results).

Sincerely yours,

Mr Igor Leprince

Dear Mr. Secretary-General,

I am pleased to confirm that BAI Communications supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment, and anti-corruption. We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. This includes:
