to support the Compact's activities to the extent of our operational capacity, as well as participate in UN Global Compact events.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. Due to several unfortunate circumstances connected to employee fluctuation, we have failed to submit the company's progress report in the year 2023. This resulted in delisting Zagorje Development Agency from the UN Global Compact webpage.

Nevertheless, even though the company has not submitted the report, the principles of UN Global Compact were respected and promoted throughout all activities which is shown in the attached COE report.

Since we support public accountability and transparency, we commit to report on progress every two years according to the Global Compact COE policy. To ensure the accuracy in timely reporting, Agency has dedicated two full time employees to monitor the activities and take part in report preparation.

Sincerely yours,
