Dear Mr. Secretary General,

I am pleased to confirm that Asociación Mexicana de la Industria de Tecnologías de Información, A.C. (AMITI) supports the ten principles of the UN Global

Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

We offer our membership guidance on key sustainability issues, promoting best practices.

We develop specific projects so that member companies actively participate in collaboration on corporate sustainability.

AMITI disseminates information to the general public to raise awareness about the contribution of the information technology industry to society.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Oscar Diez  
President  
AMITI
