H.E. António Guterres Secretary-General United Nations  
New York, NY 10017 USA

Dear Secretary-General,

I am pleased to confirm that FairWind A/S supports the Ten Principles of the United Nations Global Compact on human rights, labor, environment and anti-corruption. With this communication, we express our commitment to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. FairWind A/S will make a clear statement of this commitment to our stakeholders and the general public.

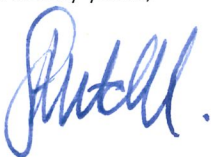

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (CoP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress starting the calendar year after joining the UN Global Compact, and annually thereafter according to the UN Global Compact CoP policy. This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the UN Global Compact.
- The completion of the online questionnaire of the Communication on Progress through which we will disclose our company's continuous efforts to integrate the Ten Principles into our business strategy, culture and daily operations, and contribute to United Nations goals, particularly the Sustainable Development Goals.

After some years as non-members, FairWind A/S wishes to rejoin the United Nations Global Compact. The reason for our previous non-membership was a simple misunderstanding following a significant organizational change. The setup and responsibilities regarding our membership were unfortunately affected by these changes and a lack of complete overview of new roles. We are eager to rectify this and fully engage in upholding the principles of the UN Global Compact moving forward.

Since then, we have created a dedicated ESG team and are constantly working on our compliance efforts and ensuring that we comply with all laws and regulations. Among other initiatives, we would like to re-join the UNGC and once again use the guidelines as part of our strategic ESG setup.

Sincerely yours,

Mr. Stewart Michell  
Chief Executive Officer
