USA

Dear Mr. Secretary General,

I am pleased to confirm that the Hashemite University supports the ten principles of the UN Global Compact with respect to human rights, labour, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

- **Driving Applied Research and Thought Leadership:** We will leverage our academic expertise to conduct more impactful research and foster innovative approaches that promote the implementation of best practices in sustainability.
- **Advocating and Educating for Sustainability:** We are committed to advocating for the adoption of the UN Global Compact's Ten Principles and will actively educate diverse audiences about the significance of sustainability in fostering a resilient and equitable future.
- **Transparent Reporting on Sustainability Efforts:** We pledge to support the UN Global Compact's objectives by diligently reporting on our sustainability initiatives and progress, thus contributing to the collective efforts aimed at achieving sustainable development goals.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Prof. Khaled Hesham Hyari

President

Hashemite University
