Dear Secretary-General,

I hope this letter finds you well.

I am happy to inform you that NewPort Europe B.V. stands firmly behind the Ten Principles of the United Nations Global Compact, encompassing human rights, labour, the environment, and anti-corruption measures.

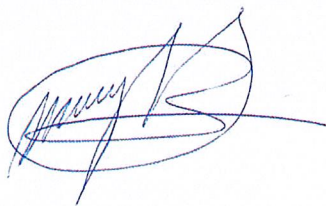

In sharing this letter, we wish to convey our corporate pledge to our commitment in incorporating the principles of the UN Global Compact into the DNA of our company ethos, strategies, and daily endeavors. We eagerly look forward to participating in collaborative efforts, both as learning experiences as well as an opportunity to assist with the overall developmental aspirations of the U.N.

NewPort Europe B.V. will openly declare our dedication to this Compact to our stakeholders and the wider public. While NewPort Europe B.V. takes the lead, all of our global offices will demonstrate their dedication to this journey.

Understanding the significance of engagement - and not just pledges - we acknowledge that an integral aspect of our involvement involves the annual submission of a Communication on Progress, delineating our endeavors to uphold the Ten Principles. Transparency and accountability are key to our commitment in sharing our progress, starting with the calendar year after joining the UN Global Compact, and continuing every year thereafter, per the UN Global Compact CoP guidelines.

We will complete the online questionnaire for Communication on Progress, detailing our ongoing efforts to embed the Ten Principles into our business strategy, culture, and daily operations. Through this, our goal is to uphold our corporate responsibilities, but also to contribute in a meaningful way to the objectives of the U.N. and Sustainable Development Goals.

Sincerely yours,

Michael de Rijk
