Dear Mr. Secretary General,

I am pleased to confirm that [Korea Freedom Federation] supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following ways: implement the UN Global Compact's Ten Principles through our own strategy and operations and encourage businesses and others to participate in the UN Global Compact.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within *two years* of joining the Global Compact and *every two years* thereafter according to the Global Compact COE policy.

Our organization was delisted due to failure to submit the COE as a result of business suspension and activity reduction during the COVID-19 outbreak. However, we wish to rejoin the UN Global Compact, and we promise to continue implementing the principles of the UN Global Compact and the realization of the Sustainable Development Goals (SDGs) moving forward.

Sincerely yours,

Mr. KANG Seokho

President
