Dear Sir,

This letter is to confirm that the group of companies ViDi Group (Ukraine) fully supports the ten principles of the UN Global Compact in the areas of human rights, labor, environmental protection and anti-corruption. ViDi Group expresses its intention to follow these principles in its work and in the future, contributing to their spread in all areas of our business. We have fulfilled the obligation to make the UN Global Compact principles a part of strategy, culture and daily operations of our company, as well as constantly inform our employees, partners, customers and the public.

Since our establishment in 1994, we have adhered to the principles of humanism, equality and responsibility, and all the actions of owners and management have focused on the development of these principles both internally and in the external environment. We were very happy to know that these principles are shared by such a reputable international organization like the UN, and to join 19 April 2011 the UN Global Compact. All this time, we consistently implement

the domestic policy in the key of 10 principles of the UN Global Compact about what informed the public as to the corporate accounting and reporting provided to the UN (<http://www.vidigroup.com/upload/iblock/82f/richnyy-zvit-za-2012-rik.pdf>, http://www.vidigroup.com/upload/iblock/929/SOC_GO_2012_new.pdf, <http://www.vidigroup.com/investors/reports/>).

In recent years, Ukraine, its people and the Ukrainian company have experienced a very difficult period in both the public and economic life. Many of our employees took part in the socio-political processes; the company also had to significantly alter its structure to meet the challenges of the time. Only by this was caused a delay in the publication of a report on social activities carried out during the period 2012-2013, despite the fact that ViDi Group has never stopped their implementation.

Neither the owners nor the management have never forgotten about the duty to inform the public, and at the first opportunity did so, has published on their website a social report for the 2011-2013 year, with complete information about the activities during this period.

Unfortunately, when we try to place a link to this report in the United Nations Global Compact, we have found that the company ViDi Group is excluded from the member list the UN Global Compact due to late submission of the report. In this regard, we offer our sincere regret and apology, explaining the delay is largely circumstances beyond our control factors. We assure you of our full support for the 10 principles of the UN Global Compact in the areas of human rights, labor, environmental protection and anti-corruption and ask to restore our status as a member of the UN Global Compact. We are committed to not only reduce the activity in activities aimed at social activities, but also to inform both the public and the United Nations in a timely manner.
