Dear Mr. Secretary-General,

I am pleased to confirm that FocusPoint International, Inc. and our wholly-owned subsidiary FocusPoint South Africa (Pty) Ltd. (hereinafter referred to collectively as "FocusPoint") supports the ten principles of the Global Compact with respect to human rights, labor, environment and anti-corruption. With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals. FocusPoint will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within *one year* of joining the Global Compact, and annually thereafter according to the Global Compact COP policy.

FocusPoint International initially became a signatory company in 2012. Shortly after making the initial pledge, FocusPoint went through organizational restructuring which impacted our ability to properly report progress against the ten principles. The company remains committed to supporting the ten principles and respectfully requests to be reinstated as an active member of the UN Global Compact. FocusPoint is actively engaged on multiple continents and goes to great lengths to ensure all of our staff, both proprietary and sub-contracted personnel adhere to the ten principles of the Global Compact with respect to human rights, labor, environment and anti-corruption.

Sincerely yours,

Mr. Greg Pearson
President & CEO
