New York, NY 10017  
USA

Dear Mr Secretary-General

I am pleased to confirm that the Barangaroo Delivery Authority, an agency of the New South Wales Government, supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption.

With the accompanying Communication, we express our intent to advance those principles within our organisation and sphere of influence as a project of state significance.

We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our organisation. The Barangaroo Delivery Authority will make a clear statement of this commitment to our stakeholders and the general public.

We recognise that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress that describes our organisation's efforts to implement the ten principles.

The Barangaroo Delivery Authority delayed its Communication on Progress to reflect the significant changes underway over the last year across *Barangaroo*, the New South Wales Government project that the Authority stewards. Over mid-late 2015, the first sections of Barangaroo were completed, with thousands of people now living, working and visiting every day.

We welcome this opportunity to submit a Communication on Progress and recommit to the Global Compact. With the Barangaroo project now at a stage where delivery and operations can be better measured with respect to the ten principles, we look forward to annually sharing our progress in the years to come.

Yours sincerely

Craig van der Laan  
Chief Executive Officer  
Barangaroo Delivery Authority
