Dear Mr. Secretary-General,

I am pleased to reconfirm that *ORTIZ CONSTRUCCIONES Y PROYECTOS, S.A.* supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption. With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals. *ORTIZ CONSTRUCCIONES Y PROYECTOS, S.A.* will make a clear statement of this commitment to our stakeholders and the general public.

The reason why we did not submit a Communication on Progress in the last years is that due to the difficult situation of the Construction Sector in Spain during these years, our company has been focused on International Expansion and diversification of business areas. For that reason we have made a big effort in order to preserve and maintain our Human Resources... We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within *one year* of joining the Global Compact, and *annually* thereafter according to the Global Compact COP policy.

Sincerely yours,

Juan Antonio Carpintero Lopez

President.
