Date
17. September 2014

Dear Sir or Madam,

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

The preparation and publication of our COP for 2014 is delayed. We were not able to complete the tasks to collocate the single activities in our different fields within the period. For M. Busch it is the first time providing the COP. The purpose of the report generation is the presentation of the status of implementing the 10 principles in the individual processes of our organization. For this we compile detailed information illustrated in report form. Because of the mass of information a completed report generation isn't possible until the appointed date.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our COP report will be posted on the UN Global Compact website by 12.12.2014 at the latest.

Many thanks in advance for your support.

Sincerely yours

M. B U S C H
GmbH & Co. KG

Wolfgang Krappe
Managing Director
