14<sup>th</sup> of October 2014

To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to little activity from our part in the UN markets lately. With a new focus, we need to put more effort into this and start the process by reactivating our membership in the UN Global Compact. Ongoing work with several tender processes in other markets put us in the need for some more time to produce a proper COP.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by 23<sup>th</sup> of January 2015 at the latest.

Sincerely yours,

Hugo Østreng

Sales manager
