To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to a new project that we want to include in our COP. This project was recently approved and financed by the local government of San Juan Province. It is related to a cooperated accomplishment between our company, two Nonprofits Organizations and a University of the San Juan local network. The aim of this project is to promote the employees' subjective well-being at the work place, which we believe it would make a significant difference in the contribution to our principal stakeholder.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by 11th February 2015 at the latest.

Sincerely yours,
