**President's message**

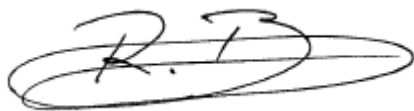

I am pleased to confirm that with this fourth Communication on Progress that CKR Global reaffirms its support of and commitment to the initiative and guiding principles of the United Nations Global Compact in the areas of human rights, labour, environment and anti-corruption.

The CKR Global group of risk mitigation and investigation companies, the first and so far only firm of its kind in Canada to formally become a signatory to the United Nations Global Compact, is committed to conducting all its business in a responsible manner, consistent with national and international standards and norms.

We take our broad obligations (social, environmental, economic) as a responsible corporate citizen very seriously, and devote significant non-commercial activities to reflect these values and our commitment to them both here in Canada and in our overseas projects.

The CKR Global group of companies is founded on the excellence of our people, their shared commitment to doing the right thing, and the excellence in our diversity of services – all of which are focused on mitigating risk and enhancing human safety and security in our work both nationally and internationally.

Respectfully,

Robert Burns  
President
