Santander, 4 de noviembre de 2014

To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report because it is finalizing a reorganization of job functions to improve the management and monitoring of Corporate Social Responsibility because it is in a reorganization of functions that affect the management of Corporate Social Responsibility.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by 30 of January of 2015 at the latest.

Sincerely yours,

ATECSOL Soldaduras, S. L.
