To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to the reason that one of our major projects--International Anti-Fraud Alliance and related series of activities will end on September 25th this year, this is one of our important measures to full support and take concrete actions to practice the ten principles of the Global Compact.

Since we joined the Global Compact on August 9th, 2013, we have placed the ten principles in the central position of company operation and always strict with ourselves to the standard of Global Compact advanced members to promote the sustainable development and prosperous partnership. We will set off a great upsurge in practicing Global Compact in the world during AFA series of activities from September 22 to September 25. At the same time, We will organize International Entrepreneurs Invitational Golf Tournament from November 2014 to April 2015 to publicize and support the Global Compact more effectively in practical action and let more outstanding enterprises and entrepreneurs join the UN Global Compact--the largest voluntary corporate citizenship initiative in the world, the preparations for the Golf Tournament will end at the end of October this year.
