Dear Mr Kell,

**Communication on Progress:  
Statement of Continued Support for the UN Global Compact**

It is my pleasure to confirm that SingTel, Asia's leading communications group with operations and investments around the world, will continue to support the ten principles of the UN Global Compact relating to human rights, labour, environment and anti-corruption.

SingTel is committed to strong corporate governance and continuous improvements as part of our sustainability efforts. We published SingTel's 5<sup>th</sup> Sustainability Report 2014 in June this year, providing an overview of our approach, policies, priorities and performance in the area of sustainability for our Singapore business operations for the financial year ended 31 March 2014.

The report adopts the reporting principles from the Global Reporting Initiative (GRI) G3.1 Guidelines and meets the requirements of a GRI Level 'B' report, and has been subjected to an external assurance process.

You can view our report at <http://info.singtel.com/sustainabilityreport2014/>.

Thank you.

Yours sincerely,
