

should support a precautionary approach to environmental challenges.	environmental challenges.	Sustainability Targets
	In Spring-Summer 2014 our Eco Engineering team organized,, Clean Green Zone” program with support of the students of State Engineering University of Armenia (faculty of Chemical Technologies and Environmental Engineering). The main goal of the program was to collect PET from the green rest zones, such as bank of rivers, rest parks. As a result we involve other companies as well, which should support a precautionary approach to environmental challenges.	
8. Undertake initiatives to promote greater environmental responsibility.	During 2014, we together more than 1.000 plastic bottles with several companies and groups throughout Armenia.	Strategic Sustainability Targets
	Eco Engineering has been working closely with “Ognem” foundation. The aim of the foundation is to facilitate the treatment of children suffering from leucosis, raise awareness about the disease, prepare and publish reports on children suffering from leucosis, conduct statistics, organize fundraising and donation events as well as collaborate with similar foreign organizations.	Donations Vision & Values
9. Encourage the development and diffusion of environmentally friendly technologies.	In 2014 Eco Engineering launched a new eco friendly facility in Yerevan.	Strategic Sustainability Targets
Anti-Corruption		
10. Businesses should work against corruption in all its forms, including extortion and bribery.	Our Corporate Ethics provide employees and shareholders with the opportunity to report confidentially any potential violations of law or company policy.	Corporate Ethics
