

GRACE LETTER

05.02.2015
Roissy

To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

Our strategy is focused on client satisfaction and aims to position UUDS AERO and its partners on the ranks of known service provider. We have started this industrial turn with serenity, knowing that the aeronautical operation services which are the foundation of our trade offer a safe basis to take on this challenge: our confidence is rooted in our strong defined commitments and values.

Our growth in 2014 mobilized significant organizational resources, to the detriment of the action's consolidation in our Corporate Social Responsibility program. The second quarter of 2015 is taking shape as calmer, and we would like to benefit from a postponement of COP Publication of 90 days, allowing us to share a comprehensive report highlighting the quality of the actions we have taken, and company's progress to implement the principles of the UN Global Compact.

Our new COP report will be posted on the UN Global Compact website by May the 15th at the latest.

Sincerely yours,

Frédéric LE BRUN
Director Manager

A handwritten signature in blue ink, appearing to read "F. Le Brun", is written over a faint, larger blue outline of the signature.
