9 February 2015

To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to our hectic schedules and progresses in many countries. Currently our Group Executive Chairman and Group CEO are away for a business development in Indonesia. They just signed with the Governor of Central Kalimantan and the Minister of Home Affairs, Indonesia; to develop Central Kalimantan as the "World Clean Energy Hub", complete with the Green City, Jatropha Agro-politan Business Cluster, Bionas bio-additives production and technology transfer as well as the e-Government system, www.bionas.com.my

We are still waiting for their feedback and approval for the COP submission. And to add on our hectic schedules, we just moved to our new and bigger office in Kuala Lumpur.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by 10 June 2015 at the latest.

Sincerely yours,

Norazlina Bt Aminuddin
Manager,
BATC Development Bhd
