COMMUNICATION ON PROGRESS (COP) TO THE GLOBAL COMPACT

Statement of continued support by the Chief Executive Officer (CEO)

I am pleased to confirm that Lesmar Ltd reaffirms its support of the Ten Principles of the United Nations Global Compact in the areas of Human Rights, Labour, Environment and Anti-Corruption.

In this annual Communication on Progress, we describe our actions to continually improve the integration of the Global Compact and its principles into our business strategy, culture and daily operations. We also commit to share this information with our stakeholders using our primary channels of communication.

Yours sincerely,

Mike Oxley
Managing Director

Background Information

Lesmar Ltd - we specialise in creative product ideas and designs for merchandise that promote our client's branding. Whether the items are to be given away for promotional purposes, or sold retail, we find and design new ideas that are going to be popular with the end-users of the products and offer good value for money for our clients.

Due to the diverse nature of our business, which involves global sourcing, there are many requirements which we purchase directly from factories in both high and low risk countries (Maplecroft definition) in addition to small urgent requirements where we purchase from EU wholesalers and use local printers and embroiders. On this basis we need to have a multi-tiered strategy for implementing our commitment to the ten principles of the Global Compact, which is controlled through our preferred supplier network.

Human Rights Principles

Assessment, Policy and Goals

Lesmar expects employers to respect fundamental human rights, to treat their workforce fairly and with respect. In order to make our position clear we have documented an Ethical Policy based on the Ethical Trading Initiative Code of Conduct and have now introduced this into a new staff handbook.

Implementation

Due to the nature of our business there are large requirements which we purchase from factories in both high and low risk countries (Maplecroft definition) in addition to small urgent requirements where we purchase from EU wholesalers and use local printers and embroiders to decorate the items.
