

1 April 2015

To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We have delayed in sharing our COP report to allow adequate time for our new leadership team to both review how our commitment to the Global Compact has been expressed throughout the company, previously, and to impact how the team expresses that commitment in the future.

We hereby ask for an extension period to be able to post a COP that describes our company's latest efforts and progress to implement the principles of the UN Global Compact. Our COP report will be posted on the UN Global Compact website within 90 days of submission of this extension request.

Sincerely yours,

Mr. Travis W. Baker
Director
Scipio Services Co., Ltd.
