

6th April, 2015

To our stakeholders:

As a member of the UN Global Compact, we recognize the importance of the Communication on Progress (COP) for which we submit our annual (Sustainability) Report, informing our stakeholders on our vision for the future and how we have fared in our sustainability practices over the past year and our expectations for the coming year.

We are late in creating, sharing and posting our COP report due to improvements in the reporting process, including the creation of an Internal Editorial Commission. We believe these changes will lead to a better and more robust process and Report, but they have resulted in a temporary increase of the timeline of the reporting cycle.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by June 30th at the latest.

Sincerely yours,

A handwritten signature in blue ink, appearing to read "Cristiano Oliveira".
