

Oslo, 24 April 2015

To our stakeholders:

Cermaq Group recognizes that a key requirement in the UN Global Compact is the preparation and posting of a Communication on Progress (COP). Our web based Integrated Report 2014 - which includes the requirements of the COP – is set for publication in May. This means our COP will be published after the deadline.

We remain strongly committed to the Global Compact's principles and hope for your understanding in asking for an extension period until our report is published. Our COP will be made available on the UN Global Compact website by 15 May.

Kind regards
For Cermaq Group AS

Wenche Grønbrekk
Head of Sustainability and Risk
